

Beamer Template for University of Southampton

Author Name¹

¹*Aerodynamics and Flight Mechanics Group*, University of Southampton

email: username@soton.ac.uk

19th July 2026

**Purpose of this Template:**

Provide a clean, consistent, and visually aligned format for academic presentations using the University of Southampton Beamer theme.

**Purpose of this Template:**

Provide a clean, consistent, and visually aligned format for academic presentations using the University of Southampton Beamer theme.

Purpose of this Template:

Provide a clean, consistent, and visually aligned format for academic presentations using the University of Southampton Beamer theme.

Template Features:

- University-approved colour scheme and branding.

Purpose of this Template:

Provide a clean, consistent, and visually aligned format for academic presentations using the University of Southampton Beamer theme.

Template Features:

- University-approved colour scheme and branding.
- Highlight boxes for emphasis and clarity.

Purpose of this Template:

Provide a clean, consistent, and visually aligned format for academic presentations using the University of Southampton Beamer theme.

Template Features:

- University-approved colour scheme and branding.
- Highlight boxes for emphasis and clarity.
- Flexible layout for technical content, figures, and equations.

Purpose of this Template:

Provide a clean, consistent, and visually aligned format for academic presentations using the University of Southampton Beamer theme.

Template Features:

- University-approved colour scheme and branding.
- Highlight boxes for emphasis and clarity.
- Flexible layout for technical content, figures, and equations.
- Accommodate various imaging formats (.svg, .pdf)

Purpose of this Template:

Provide a clean, consistent, and visually aligned format for academic presentations using the University of Southampton Beamer theme.

Template Features:

- University-approved colour scheme and branding.
- Highlight boxes for emphasis and clarity.
- Flexible layout for technical content, figures, and equations.
- Accommodate various imaging formats (.svg, .pdf)
- Simple switch to convert from print and animation

Southampton Colour Palette

	sotonunibblue		sotongreen		sotonmidgreen		sotontrueblue

Example with Two Columns

Demonstration of using two columns to present related content side-by-side.

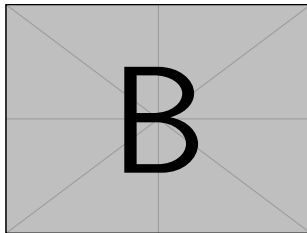

Text + Image Example

You can place a description, bullet points, or equations here to complement the visual on the right.

Visual Emphasis

Use visuals to present results, schematics, or concepts clearly.

Example Slide

This slide demonstrates how to present example numerical data using tables and highlight boxes in a consistent layout.

Example Slide

This slide demonstrates how to present example numerical data using tables and highlight boxes in a consistent layout.

Label	A	B (units)	C (units)	D (units)	E (units)	Category
X1	10	123.4	5.67	0.0089	2500.00	Type A
					2480.50	Type B
X2	12	456.7	3.21	0.0065	3100.00	Type A
					3088.00	Type B

Example Slide

This slide demonstrates how to present example numerical data using tables and highlight boxes in a consistent layout.

Label	A	B (units)	C (units)	D (units)	E (units)	Category
X1	10	123.4	5.67	0.0089	2500.00	Type A
					2480.50	Type B
X2	12	456.7	3.21	0.0065	3100.00	Type A
					3088.00	Type B

Example Highlight: Value E changes across categories

Example Slide

This slide demonstrates how to present example numerical data using tables and highlight boxes in a consistent layout.

Label	A	B (units)	C (units)	D (units)	E (units)	Category
X1	10	123.4	5.67	0.0089	2500.00	Type A
					2480.50	Type B
X2	12	456.7	3.21	0.0065	3100.00	Type A
					3088.00	Type B

Example Highlight: Value E changes across categories

Example Highlight: Label X2 corresponds to higher A and lower D

Example Slide

This slide demonstrates how to present example numerical data using tables and highlight boxes in a consistent layout.

Label	A	B (units)	C (units)	D (units)	E (units)	Category
X1	10	123.4	5.67	0.0089	2500.00	Type A
					2480.50	Type B
X2	12	456.7	3.21	0.0065	3100.00	Type A
					3088.00	Type B

Example Highlight: Value E changes across categories

Example Highlight: Label X2 corresponds to higher A and lower D

Example Highlight: Category B generally yields lower E values ([Lovell, 2011](#))
